Passionate about developing efficient, scalable applications and improving user experiences. Adept at problem-solving, software development, and teamwork. Seeking an opportunity to apply and expand technical knowledge in a dynamic work environment.

---

### TECHNICAL SKILLS

- Languages: Core Java, Advance Java , JavaScript(learning), HTML, CSS.
  - Technologies/Frameworks: JSP, Servlets .
  - Tools & Database: GitHub, VS Code, Eclipse IDE & MySQL.
  - Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms(learning).
- 

### PROJECTS

#### 1. Flood Monitoring System using IoT

- Technologies Used: C#, HTML, CSS, JavaScript, Arduino UNO
- Description: Developed an IoT-based real-time flood monitoring system using Arduino sensors to track water levels and send automated alerts.
- Key Contributions:
  - Implemented real-time data collection and alert mechanism.
  - Designed an intuitive user interface for monitoring.
  - Enhanced system efficiency by optimizing sensor communication.

#### 2. Online Agricultural Equipment Rental System

- Technologies Used: HTML, CSS, JavaScript, PHP, MySQL
- Description: Built a web-based platform that connects farmers with agricultural equipment rental services.
- Key Contributions:
  - Developed interactive front-end with seamless navigation.
  - Implemented secure user authentication and data management.
  - Enhanced database structure for efficient inventory tracking.

#### 3. Tic-Tac-Toe Game in Java

- Technologies Used: Core Java, Java Swing
- Description: Developed a simple Tic-Tac-Toe game using Java and Swing for GUI-based interaction.

# Java Full Stack Developer

- Key Contributions:
    - Implemented a fully functional two-player game mode.
    - Designed an intuitive graphical user interface (GUI) using Java Swing.
    - Incorporated game logic and validation for win conditions.
- 

## EDUCATION

- **Master of Computer Applications (MCA)**
    - East West College of Management, Bangalore (2022 - 2024)
    - CGPA: 7.71
